## A message from our CEOs

**It's time to come back to in-Person meetings!**  
**We wait for you in Rotterdam and Muscat!**

Few weeks ago, it was January, because of the new Covid restrictions decided by Oman authorities, we took the tough decision to postpone the first face-to-face meeting of EPN. Not anymore in March. The meeting will be in Oman as we decided months ago, next September, from 11th to 14th and one more leisure day on 15th.

We are sure to have taken the right decision to allow the largest number of members attending the meeting and also we are sure the meeting will be unforgettable because of you and us will be able to restart to have a normal social life, also in our businesses!

But we have another great news for you.

You don't have to wait September to meet EPN team, to discuss how to improve your business, to meet the other members or to sign for your membership.... as we are very excited to announce our booth at Breakbulk Europe 2022, from 17 to 19 May in Rotterdam, Netherlands! Save the date and visit EPN at our booth 1G10, Hall 1

You know, Zoom, Teams, Skype, Whatsapp, Messenger, Signal... we started to use more and more and more all these apps and devices: mics and headphones, cameras and green backgrounds. Everything was very useful and everything will be useful forever to reduce time, costs and flights. But a real meeting has something more and for this reason we wait for you in Rotterdam and Muscat!

# MEMBERS INTRODUCTION

# WELCOME, READERS!

**Great news:** we are expanding our network more and more! It was such busy months as we are continuously adding more members in our platform.

We are always committed to our members, to provide a networking platform that can connect businesses all over the world.

With the expanding number of members, we believe that it can open so many doors to opportunities.

In this section we will introduce our members that have joined us so far.

# Aqua Air Logistics LLC

*"Through teamwork and innovation, we shall strive to be an Expert in providing transportation and logistics service."*

Aqua Air Logistics - was incorporated in December 2010 and has since then established itself as a strong and reliable logistics service provider in Middle East.

Company has well qualified dedicated staff to extend excellent support to clients & has professional agency net work throughout the globe.

## **BLOCKCHAIN TECHNOLOGY AND ITS IMPACT ON FINANCIAL AND SHIPPING SERVICES**

Blockchain technology is becoming one of the main drivers of innovation in the global economy. Its adoption will have a huge impact on how businesses and governments operate and on the way people organize their everyday lives. Financial services industry is the one experiencing the biggest impact of the blockchain disruption so far, while financial institutions are among the first adopters of the technology. At the same time, being a relatively traditional industry, shipping has not yet seen many use cases with blockchain, but the technology is able to change this industry dramatically.
