# WELCOME!

A message from our CEOs

## Fast and Powerful

One year of Exclusive Project Network. It was the 1st of April when the first founder members joined our network. In two months 30 more members chose EPN. Before the end of 2021 the threshold of 60 Countries covered in the World was reached. And now, one year later 75 Countries and 5 strong partners decided to build with us the most exclusive Project Network. Just one member per Country, as you know. Only the most professional Project logistics companies. Because the competition has to be with the World out of the Network.

Now the toughest challenge is waiting for us: to keep growing, selecting the most skilled Project Forwarders in at least 30 more Countries, reinforcing the cooperation between our members, having a great first annual meeting in Oman next September.

Without forgetting one of the most important events in our sector: Break Bulk Europe 2022 from 17 to 19 May 2022

As you know, EPN has its own stand in BBEU Rotterdam. If you are part of our network and if you want to rely on our stand....! We wait for you in Hall 1 – Booth 1G10. We want to make our stand a space available to every EPN member to work, to meet people, to share brochures, to take some rest. You are not EPN member yet? Come visit us to know the force of our network!

## **Port of Felixstowe deploys 5G technology**

Hutchison Ports-owned Port of Felixstowe has become the largest port in the United Kingdom (UK) to deploy 5G technology and the Internet of Things (IoT).

Along with consortium members, Three UK, Blue Mesh Solutions and the University of Cambridge, the port was successful in an application for grant funding under the 5G testbeds and trials programme (5GTT) run by the department for digital, culture, media and sport (DCMS).
