WELCOME!

A message from our CEOs

Exclusive Project Network (EPN) is heading for it's 1st annual meeting in Muscat/Oman between Sept. 11th and Sep 14th, 2022

Finally we are coming closer to our first global event in Muscat, the center of beautiful oriental Oman!

After having been forced to postpone the initial dates in March due to Covid 19-restrictions, we are now having firm dates and all is set for a great first come-together.

After growing by another 10 members more during only the last days we expect to have approx. 100 participants of the world's leading and most experienced project freight forwarders to join us. It will be a true VIP- and elite-event amongst members of our industry and we much look forward to that.

If you have not registered yet pls get in contact with Josefine.Draxdorf@epnetwork.net and/or Nicole.Minerva@epnetwork.net and do your formalities – please be aware, that visa-procedures may take some time (we organize same for you) and therefore the earlier you register the better for all of us.

We look very much forward to welcome all of you in Oman!

Jürgen Weyhausen

FOR EPN MEMBERS!

We are excited to confirm you that we already booked our stand at Breakbulk Europe 2023!

Break Bulk Europe 2022 has been a great success for all of exhibitors. For EPN was the first experience and it was great!

Great to see how people want to meet their partners and agents face to face again! Great to meet many of you in person!

We want to make the experience in BB EU 2023 even better, sharing the opportunities and our stand with our members!

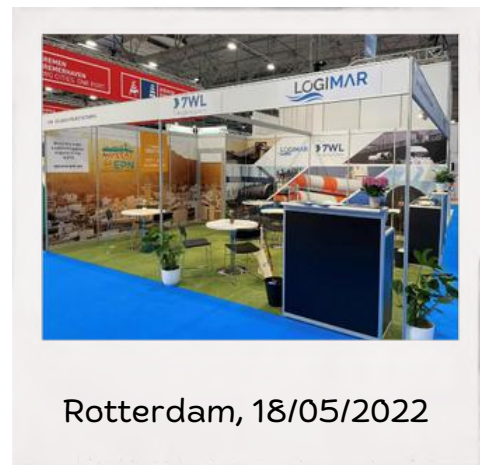

What we offer:

- Really Good Position: Hall 1, Stand 1G10
- 30 sqm of Stand
- 9 panels in total, split 1 mt. each
- Half display for company brochures
- 4 tables, 16 chairs always at your disposal
- Promotion on a special issue of "Journal of Break Bulk" edited by EPN. A new, nice, brochure with EPN and our members news

Don't miss the opportunity to be part of our Stand!

Port Houston Begins \$1 Billion Ship Channel Expansion Project

A \$1 billion project to expand the Houston Ship Channel kicked off with an official ceremony last week, leading the way for greater safety, efficiency and economic growth in one of America's busiest waterways.

Known locally as Project 11 because it is the eleventh major construction project of the waterway in its more than 100-year history, the Houston Ship Channel expansion will widen the channel by 170 feet along its Galveston Bay reach, from 530 feet to 700 feet. It will also deepen some upstream segments to 46.5 feet, make other safety and efficiency improvements, and craft new environmental features.
