WELCOME!

A message from our CEOs

Hello Fellow Members!

Between September 11th and September 14th, EPN finally, after one postponement due to COVID-restrictions, had its first annual meeting in beautiful Muscat/Oman.

We are proud, that almost 80% of our members attended and we had a joyful and successful come-together.

Lots of new business opportunities were discussed, new contracts were signed and apart from all of that, everybody enjoyed the face-to-face-meeting-atmosphere again after almost 3 years, where most of us were only able to 'meet' in video-conferences.

This time we also had the opportunity to combine our annual meeting with the meeting of the world's leading network for Africa logistics, the Africa Logistics Network (ALN), covering almost 100% of the African countries and thus giving both EPN- and ALN-members the chance to meet even more than only their own fellow-network-members.

We will do these combined meetings also in the future one time within a period of three years – no other network in this world is giving their members such an opportunity, another outstanding argument why to be member in EPN resp. ALN.

Our next annual meeting will be in September 2023 in Dublin (precise dates to follow soon) and we are already now looking forward to this event.

We wish to thank all attendees for having been in Muscat – only if members are active, we can be successful!

FOR EPN MEMBERS!

We are excited to confirm you that we already booked our stand at Breakbulk Europe 2023!

Break Bulk Europe 2022 has been a great success for all of exhibitors.
For EPN was the first experience and it was great!

Great to see how people want to meet their partners and agents face to face again! Great to meet many of you in person!

We want to make the experience in BB EU 2023 even better, sharing the opportunities and our stand with our members!

What we offer:

- Really Good Position: Hall 1, Stand 1G10
- 30 sqm of Stand
- 9 panels in total, split 1 mt. each
- Half display for company brochures
- 4 tables, 16 chairs always at your disposal
- Promotion on a special issue of "Journal of Break Bulk" edited by EPN. A new, nice, brochure with EPN and our members news

Don't miss the opportunity to be part of our Stand!

\$40bn a year investment to meet 2030 zero emission fuels target

A study on shipping's progress towards decarbonisation said the industry will need to commit to investing \$40bn a year by 2030 to develop Scalable Zero Emission Fuels (SZEf).

The report by UMAS and the UN's Climate Change High Level Champions measured the industry's progress towards the goal of SZEf making up 5% of shipping fuel by 2030 – a target and milestone for the industry to achieve its ambition of zero emissions by 2050.
