## We are EPN!

Learn more about all of our new Members and Partners, from the company background to the services they offer.

Take a look at our featured articles about current trend in logistics industry.

### Who we are

The Exclusive Project Network is a global group of high-class experts in the field of project - and heavy lift - logistics.

### Annual Meeting

As we value personal relationships, we also have an Annual Meeting: The best opportunity to meet fellow members in person and build relationships to generate more businesses.

### Basic principles

- One Country - One Member (by the choice of the founding member)
- Only qualified companies may join
- Membership fee related to the GNP of each country, thus having a more fair cost-system

# WELCOME TO 2024

A message from our CEO

## 3rd Annual Meeting in Istanbul (25th - 27th September + Leisure Day)

Dear Fellow Members,

time is flying, and we already look much forward to our 3rd AGM, this time in the exciting interface between the Orient and Occident in pulsating Istanbul.

We chose Istanbul not only since it is well reachable by all members due to it's central location between East and West, but also since Istanbul and Turkey as a whole have become not only a major import- and export-economy, but also one of the main most interesting logistics hubs between West and East and v.v. A good number of our members are regularly using Turkey's possibilities for transports to the Middle East, to Central Asia and other regions.

Turkey also offers many excellent and well-experienced logistics companies meantime, one of them is certainly our member Network Project Logistics, and our friend Mirsharaf Achilov will be more than happy to personally give you all the insights about Turkey's possibilities during our annual meeting.

Apart from business, you will experience the great taste of Turkish food, a thrilling mix of oriental and occidental culture and long story short:

We will all just have a great and good time there 🍷🍷

We look much forward to seeing you all there!

Yours,  
Jürgen

XXL monopiles to be built in Esbjerg from 2026 onwards

# HOT NEWS

Photo credit: [www.projectcargojournal.com](http://www.projectcargojournal.com)

## XXL MONOPILES TO BE BUILT IN ESBJERG FROM 2026 ONWARDS

You can read the full article [HERE](#)

**Baltic Structures Company (BSC) has moved closer to an offshore wind development hub that the Port of Esbjerg has recently turned into, by establishing an XXL monopile production plant. The company chose Esbjerg as it is a strategic spot for 80 per cent of the upcoming offshore wind projects.**

This initiative represents a significant step in the company's dedication to promoting renewable energy solutions and highlights Denmark's role as a major player in the shift towards green energy. BSC's new production facility and its increased production capacity will help bridge a significant gap in the foundations' supply chain, thereby enhancing security for offshore expansion goals.

The company said it focused on equipping the facility with cutting-edge technology in order to set new industry standards. The plant's design and the incorporation of the latest advancements in technology mean the XXL monopiles will surpass industry benchmarks for efficiency and environmental impact.

BSC fabrication site in the Port of Esbjerg will be Europe's biggest such facility and will be able to offer various foundation structures with a more than 100,000 square metre production area under the roof and an output of up to 200 XXL monopiles per year. The focus of this plant is on structures with dimensions of up to 15 metres in diameter, up to 130 metres in length and single unit weights of up to 4,000 tons. In addition to monopiles, transition pieces, pin piles and components for jackets and floating foundations will also be offered.

By understanding, supporting and driving forward BSC's plans at the Port of Esbjerg, the port management enabled decisions to be made within a very short timeframe in order to meet the overall timetable for the start of production by the end of 2026.

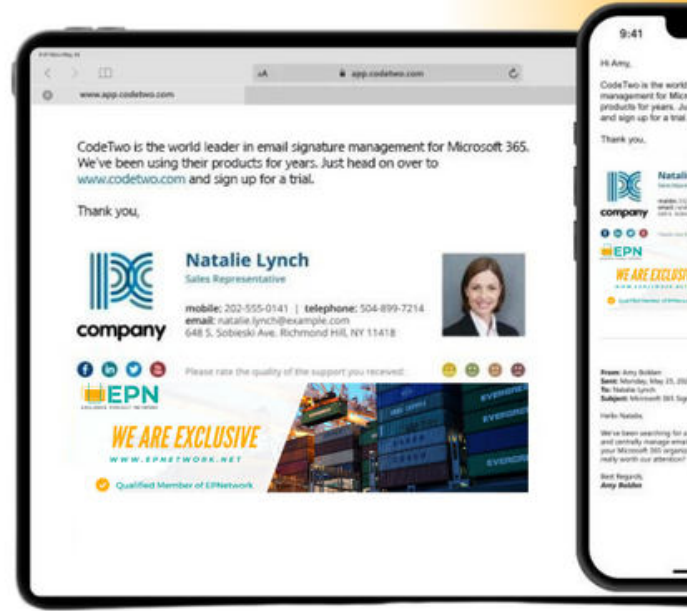

# SPECIAL CERTIFICATION AVAILABLE

EPN made an agreement with an external German auditing company, that will enable members to become an approved project forwarder certified by them.

This well known certifier will need you to reply to the attached questionnaire and if all can be answered positive, you are entitled to get the approval-certificate thus helping you to build even more trust with your valued customers.
